City Invites Public Input on Draft 2020 Urban Water Management Plan

*Plan Addresses Existing and Future Water Needs;
Part of City's Ongoing, Multi-Faceted Water Planning Efforts*

The City of San Diego is inviting public review and comment on its Draft 2020 Urban Water Management Plan (UWMP) through April 5, 2021. The Plan includes an updated Water Shortage Contingency Plan (WSCP) Appendix.

In compliance with California Water Code (§10610-10656, §10608 and §10632) the UWMP and WSCP are required to contain detailed evaluations of the water supplies necessary to reliably meet demands over at least a 20-year period in both normal and dry years.

The City is required by the Urban Water Management Planning Act to prepare a plan every five years. The City is required to formally update and adopt a plan by July 1, 2021 for submittal to the California Department of Water Resources. An Environment Committee public hearing for these documents is tentatively scheduled for April 15, 2021 or alternatively May 27, 2021. All comments will be reviewed before the public hearing.

The Plans are available for public review and can be found on the City of San Diego website at:
<https://www.sandiego.gov/public-utilities/sustainability/water-supply>

Comments must be received no later than 5:00 p.m. Thursday, April 5, 2021 and can be sent to:

Khuram Shah, Project Manager
Public Utilities Department
